Information about the New York State Area Health Education Center System

The New York State Area Health Education Center (AHEC) System

is working to increase the number of students entering primary care and other health professions programs by promoting health professions as a viable option for elementary, middle, secondary, community college, and college students, particularly those who are from disadvantaged and under-represented minority backgrounds.

What does AHEC do to promote careers in health care in New York State communities? AHEC participates in school career fairs, visits classrooms to talk about health careers, and sponsors summer camps and educational programs for students that promote careers in health.

Contact the AHEC in your area for more information on any health career you may be interested in or visit the AHEC website at www.abec.buffalo.edu
